## Williamson County Landfill

Fall 2024

WILLIAMSON COUNTY LANDFILL

### Manager's Report

Hello neighbors! We are committed to informing you about landfill operations, and we have no new projects scheduled for the rest of the year. Our focus will remain on maintaining regular services and ensuring safe, efficient waste management.

**JESSE ANDRADE**  
Sr. District Mgr

We also want to remind everyone about the safety considerations with transitional weather. The shift from warm, dry conditions to cooler, potentially wetter weather can affect driving and working conditions. Please be vigilant for any changes in surface traction due to increased moisture and adjust your driving speed accordingly. If you ever need to utilize the landfill and it's been raining, please check its status on our WM Texas Storm website: [wmtexasstorm.com](http://wmtexasstorm.com). We will update the page anytime the landfill is closed or only accessible by four-wheel-drive vehicles. Additionally, dressing in layers can help you stay comfortable and focused as temperatures fluctuate. And remember, proper hydration and sun protection remain essential, even as the season changes.

We have multiple activities ahead of us for the fall. Our next Household Hazardous Waste event is **on October 12 from 8 AM to 1 PM**. WM and the county will host the event at the Williamson County Central Maintenance Facility at 3151 SE Inner Loop in Georgetown. You can find more information on our website, [www.williamsoncountylandfill.wm.com](http://www.williamsoncountylandfill.wm.com). We will also be handing out candy at the Frights on Orgain at the Bushy Creek Amphitheater for Halloween **on October 26**. Last but not least, WM is returning as a sponsor for the Annual Hutto Olde Tyme Days **on October 12** and the Williamson County Fair and Rodeo **on October 23 - 26**. I know both will be a great time.

I hope everyone's fall is full of memorable moments and fun. If you have any questions, please don't hesitate to call me at 512-823-2896. We are open Monday - Friday, 7 AM to 5 PM, and Saturday, 7 AM to 12 PM.

### Reminder: Keep Batteries Out Of Recycling And Waste Carts

#### Here's why.

Batteries pose a safety hazard for workers as they can cause fires in our trucks and recycling facilities. Never dispose of batteries in your waste or recycling bins.

This includes anything with a rechargeable lithium-ion (LI) battery such as:

- Bluetooth headsets and headphones
- Cell phones
- Digital cameras
- Game console controllers
- Laptops
- Personal fitness devices
- Power tools
- Smartwatches
- Tablets
- Toys

Instead, safely recycle batteries in the following ways:

- Visit WM's Battery Tracker at [www.wmlamptracker.com/v2/product\\_battery.cfm](http://www.wmlamptracker.com/v2/product_battery.cfm).
- Check the websites [call2recycle.org](http://call2recycle.org) and [earth911.com](http://earth911.com) to find locations to dropoff and dispose of LI batteries.
- Check local City or County websites or local retailers for battery recycling dropoff locations.

To learn more, visit [wm.com/recyclerright](http://wm.com/recyclerright).
